

ANNUAL PUBLIC ROADS PROGRAMME

FINANCIAL YEAR 2018/2019

FOREWORD

Each year, Kenya Roads Board finances the maintenance of road network through the Kenya Roads Board Fund (KRB). The Fund is distributed among the road agencies charged with maintenance and they include: Kenya National Highway Authority (KeNHA), Kenya Urban Roads Authority (KURA), Kenya Rural Roads Authority (KeRRA), Kenya Wildlife Services (KWS) and the County Governments. Pursuant to Section 19 (4) of the KRB Act, KRB is required to review, individually, the Annual Road Works Programmes (ARWPs) submitted by Road Agencies and consolidate these ARWPs into an Annual Public Roads Programme (APRP). Section 19 (5) of the Act requires the Board to submit the APRP to the Cabinet Secretary responsible for Roads, and the Cabinet Secretary responsible for Finance for their approval. The approved APRP then forms the basis of funds allocation and an instrument for auditing by the Board.

A consolidated Annual Public Roads Programme 2018/2019 is provided detailing allocation of KRB to agencies and their work plan. The Annual Public Roads Programme FY2018/19 has been prepared based on projected collections of the Kenya Roads Board Fund (KRB-F) of KShs. 68,996,000,000 comprising KShs. 68,446,000,000 from the proceeds of the Road Maintenance Levy Fund (RMLF) and KShs. 550,000,000 from Transit Tolls. In this APRP, a total of 80,637 km have been planned for; routine maintenance on 59,490 Km, periodic maintenance on 1,476km, performance based maintenance contracts on 7,099km and spot improvement on 12,573km of roads spread across the country.

To ensure that value for money is achieved, the Board will monitor the implementation through Technical Compliance, Financial and Performance audits. The Board acknowledges the immense support it has received from the Ministry of Transport, Infrastructure, Housing and Urban Development, and the National Treasury, Road Agencies, Development Partners, County Governments and other stakeholders in the Roads Sub-Sector.

The implementation of this APRP will contribute to the attainment of the Government's Big Four Agenda and the realization of Vision 2030 goals through an improved road network.

EXECUTIVE DIRECTOR

ANNUAL PUBLIC ROADS PROGRAMME FOR THE FINANCIAL YEAR 2018/2019

EXECUTIVE SUMMARY

Introduction

This Annual Public Roads Programme (APRP) presents the consolidated Annual Road Work Programmes from the designated road agencies and provides detailed allocations for all the funds accruing from Kenya Roads Board Fund (KRB) in the Financial Year 2018/2019.

Background

Section 31 of the Kenya Roads Board (KRB) Act No. 7 of 1999 establishes the Kenya Roads Board Fund (KRB) into which funds for road maintenance from various sources are to be deposited. The funds deposited into the KRB are to be utilized towards the maintenance of the road network in Kenya.

The projections for KRB in the financial year 2018/2019 are KShs 68,996,000,000 (Sixty Eight Billion, Nine Hundred and Ninety Six million shillings). The Road Maintenance Levy Fuel (RMLF) collections are estimated to be KShs 57,276,833,334 (Fifty-Seven Billion, Two Hundred and Seventy Six million, Eight Hundred and Thirty Three Thousand, Three Hundred and Thirty Four shillings). These two primary sources of funds will contribute to the funds deposited into the KRB.

Roads Fund Management

The 2010 Constitution of Kenya changed the way government operations are handled. It led to creation of two-tiers of government, national and county government and this brought about decentralization of some functions previously performed by the central government to county governments, to ensure services are delivered efficiently and effectively at county level. Subsequently, management of road funds has also been decentralized and the distribution of these funds is guaranteed in the County Allocation of Revenue Act (CARA).

The fuel levy fund managed by Kenya Roads Board is shared with the road agencies based on a legislated formula of, 40% to KeNHA, 21.8% to KeRRA, 10.2% to KURA, 1% to Kenya Wildlife Services (KWS) and 15% to County Governments. KRB retains the difference of 10%, which it allocates to road agencies on a "case-by-case" basis, and another 2% for its operations.

The fund is released to the Road Agencies (RAs) and County Governments (CGs) on a monthly basis in accordance with the approved disbursement schedule, and after deliberation and resolution of the Board.

The APRP also provides a plan of action for road maintenance in subsequent years following the Mid-Term Framework format. In addition, the APRP:

- Is a planning and management tool that provides a framework for funds disbursement and a basis for monitoring of the utilization of the fund by the RAs and County Governments.
- Is used by both the funding agency (KRB) and executing agencies (RAs and CGs) to account for the funding and utilization of the funds in the road works
- APRP is published annually and the document made available to the stakeholders therefore enhancing transparency and accountability.

Table 1.1 below shows the estimated amounts that is due to each of the Road Agencies.

Annual Public Roads Programme (APRP)

As mandated by the Kenya Roads Board Act No. 7 of 1999, KRB coordinates the road maintenance, rehabilitation and development funded by RMLF. The Board also advises the Minister on all matters related thereto.

Pursuant to Section 19 (4) of the KRB Act, it requires KRB to review, individually, the Annual Road Works Programmes (ARWPs) submitted by Road Agencies and to consolidate these ARWPs into an Annual Public Roads Programme (APRP).

This Annual Public Roads Programme has been developed from the premise that the total estimated collections of the KRB KShs. 68,996,000,000 would be realized and utilized by the Road Agencies and County Governments in Kenya.

This APRP informs the Kenyan public on the programme of road works that

will be undertaken during the Financial Year 2018/2019.

Length of the Road Network

In January 2016, the length of the entire Road Network in Kenya was gazetted to be 161,451.3 km. Of these, 39,995.1 kms are categorized as National Trunk Roads and 121,456.4 kms as County Roads, as illustrated in Table 1.2 below. This information is based on the road inventory and condition survey carried out between the year 2007 and 2009. This inventory covers roads with way-leaves greater than 9.0 m.

In August 2016, Kenya Roads Board in partnership with the World Bank through the Kenya Transport Sector Support Project (KTSSP) undertook a Road Inventory and Conditions survey that targeted narrow roads, which are less than 9m wide. The aim of the study is to include these roads in the KRB's geo database. This survey is extensively complete.

Key outputs from the Consultancy include:

- A total of 230,000 km of roads have been inventoried.
- The road conditions for the paved and unpaved road network have been established.
- The percentage of rural population living within 2km of good and fair roads has been determined

Road Classification, 2016

The Constitution of Kenya assigns the responsibility of managing National Trunk Roads to the National Government while that of managing County Roads, to County Governments. These changes in responsibility necessitated reclassification of the road network. In view of the above, the State Department in charge of roads prepared a roads classification system, which was Gazetted in January 2016, as shown in the table below;

Of the 39,995.10 km of the National Government roads, KeNHA is responsible for 18,101.9 km, KeRRA is responsible for 19,524.2 km and KURA is responsible for 2,364.5 km.

Table 1.2: Road Network in Kenya

Table 1.5: overall road condition mix

| Road Class | Condition | | | | | | |
|----------------|--------------|--------|--------|----------------|--------|--------|--------|
| | Paved (100%) | | | Unpaved (100%) | | | |
| | Good | Fair | Poor | Good | Fair | Poor | |
| National Roads | 27.38% | 43.00% | 14.12% | 7.00% | 7.80% | 7.82% | 22.62% |
| County Roads | 5.69% | 5.20% | 4.34% | 22.00% | 23.55% | 30.38% | 75.93% |

The table 1.4 above shows that currently, 57% of the road network in Kenya is in good or fair condition. Compared to 2009 road network condition, the road network condition has improved from 44% to 57% (good and fair) and this is attributed to the increase in RMLF allocated to the Road Agencies and the surveillance carried out by KRB on the use of the RMLF. A bigger percentage of the unpaved County network as shown in table 1.5 is either poor or very poor indicating the need for more resource allocation to upgrade the standards.

Funding Requirements for the Road Network in Kenya

The Road Sector Investment Programme 1, RSIP1 (2010 – 2014), estimated that about KSh. 70 billion was required for the maintenance of the entire road network annually. This did not however include the backlog maintenance.

Fuel levy collections increased by approximately 30% following the increase of fuel levy rate from KShs. 12 to KShs.
