List of Figures

Figure 1:	The overall road condition mix over the last 15 years	6
Figure 2:	Changes in the Highways Road Condition Status for the last One (1) Year	29

An aerial photograph of a road with yellow and green geometric overlays. The road has a white dashed line down the center and a solid white line on the right side. The overlays consist of a large yellow diagonal band and a green diagonal band above it. A white line runs parallel to the road's right edge, and a yellow line runs parallel to the road's left edge.

● INTRODUCTION

1

1.1 Background

The Kenya Roads Board Act No. 7 of 1999 gives the Board an overall mandate to oversee the road network in Kenya and coordinate the maintenance, rehabilitation and development funded by the Fund (RMLF) and to advise the Cabinet Secretary on all matters related thereto.

Section 19 (4) of the KRB Act states that “the Board to review individually the annual road programmes submitted by the road agencies and consolidate the Annual Roads Works Programmes (ARWPs) into Annual Public Roads Programme (APRP) which shall: -

- Specify the amount allocated for the maintenance, rehabilitation, and development of each class of roads.
- Match the cost of implementing the APRP with revenues collected or estimated to be collected by the Board and within the Fund; and
- Identify roads requiring maintenance, rehabilitation, or development in order of priority, considering social and economic requirements of the country or any part thereof in which roads are located”.

Further, Section 19 (5) of the Act requires the Board to submit the APRP to the Cabinet Secretaries for Roads and Finance for approval. The approved APRP shall form the basis for funds allocation and auditing of works by the Board and shall not be varied by the road agency without the prior written approval by the Board.

The Board is also required in accordance with section 35(2A) of the Act to submit a collated annual roads maintenance programme to the National Assembly for approval.

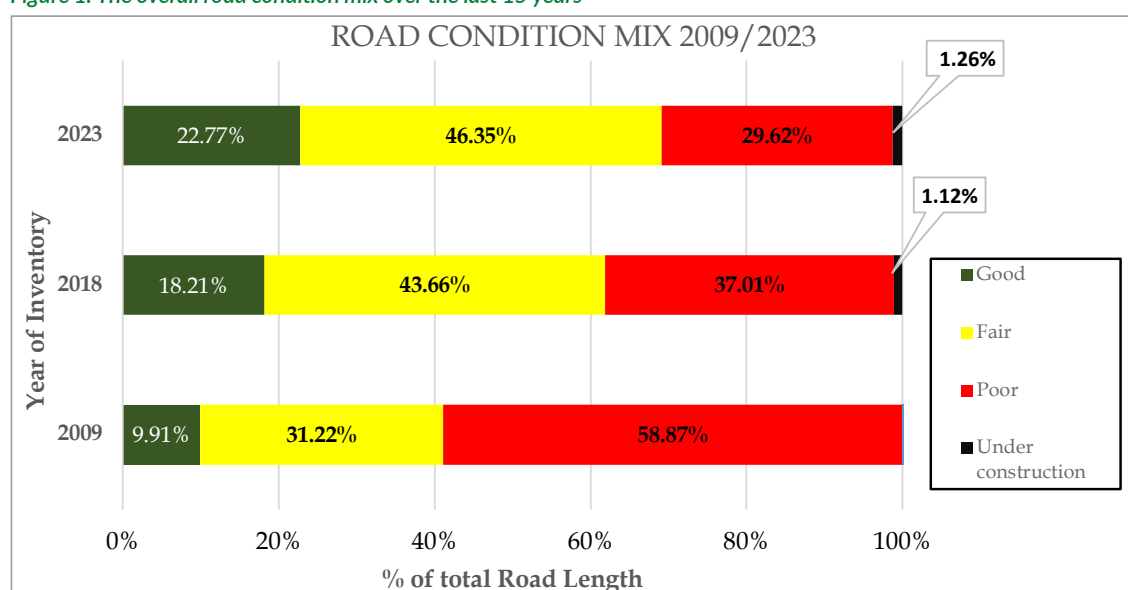

The APRP 2024/2025 sets out targets of the road maintenance programs funded by the Kenya Roads Board Fund which will be implemented by Road Agencies in FY 2024/2025.

1.2 Road Condition Mix

Over the last fifteen years, the Government has invested heavily in road development and maintenance. This has resulted in an overall improvement of the road conditions as shown in Figure 1 which compares the road condition mix for 2009, 2018 and 2023.

While the poor road network has declined from 59% to 27% in the period, the recorded figure is still significant and requires a big investment to bring that network to maintainable standards. The unclassified road network increased from 34,655 Kms in 2018 to 74,219 Kms in 2023 bringing the total road network in the country to 239,105 Kms.

Figure 1: The overall road condition mix over the last 15 years

After every five (5) years, KRB normally undertakes a countrywide Road Inventory and Condition Survey (RICS) to update the information given above. It is worth noting from Figure 1 that the maintainable

network (in good and fair condition) has been improving progressively in the last 15 years from 41% in 2009 to 68% in 2023. This is attributed to the various maintenance interventions and upgrading works which have been carried out over the period.

The condition of the road network reported in 2023 may have significantly change due to the current enhanced rainfall in the country. It is worth noting that projected RMLF budget for FY 2024/25 is much less than previous years and may not sustain the good trajectory in growth on the network under maintainable condition.

1.3 Roads Sector Institutional Set Up

The State Department for Roads is responsible for development and maintenance of road infrastructure in the country. The Department delivers the Road maintenance function through the following agencies:

- Kenya Roads Board (KRB), which is responsible for the management of the Road Maintenance Levy Fund (RMLF).
- Kenya National Highways Authority (KeNHA), which is responsible for the management, development and maintenance of National Trunk Roads in Classes S, A and B.
- Kenya Rural Roads Authority (KeRRA), which is responsible for the management, development and maintenance of National Trunk Roads in Class C.
- Kenya Urban Roads Authority (KURA), which is responsible for the management, development and maintenance of Urban Roads in Cities and Municipalities.
- Kenya Wildlife Service (KWS), which is responsible for the management, development and maintenance of roads in National Parks and National Game Reserves.

Additionally, the 47 County Governments are responsible for the management, development and maintenance of County Roads (Classes D and below). Currently, KRB is not involved in monitoring road maintenance programmes done by the County Governments since they are expected to maintain their mandated networks using equitable share allocation.

● APRP FY 2024/2025 BUDGETS

2

The Board is required under Section 19 of the KRB Act No. 7 of 1999 to indicate to the road agencies at least a year in advance the amount of funds likely to be available, the priorities of the Board in funds allocation in the coming year and the criteria to be applied in making allocations. The APRP for financial year 2024/2025 has therefore been prepared based on the Printed Estimates of the Kenya Roads Board Fund (KRB-F).

Table 1 below shows the KRB-F expected income and forward estimates for FY 2024/2025 and 2025/2026 respectively. The table also shows budget allocations for FY 2023/2024 and 2024/2025 and forward estimates for FY 2025/2026.

Table 1: KRB-F Allocation to Road Agencies

INCOME	APPROVED ESTIMATES FOR FY 2024/2025	FORWARD ESTIMATES FOR FY 2025/2026
Development Budget		
a) Annuity Programme	14,087,000,000	14,368,856,514
Sub Total Development	14,087,000,000	14,368,856,514
Recurrent Budget		
a) Transit /Toll Charges	1,200,000,000	1,224,000,000
b) RMLF Allocations	68,336,000,000	69,744,282,568
Sub Total Recurrent	69,536,000,000	70,968,282,568
Total KRB-F	83,623,000,000	85,337,139,082

BUDGET ALLOCATIONS TO ROAD AGENCIES			
AGENCY	AMOUNT (KSHS.)		
	FY 2023/2024	FY 2024/2025	FY 2025/2026
KeNHA (Road Classes S,A,B) RMLF	26,968,840,816	24,524,217,687	26,520,416,239
KeNHA Transit	784,000,000	1,274,000,000	1,199,520,000
KeNHA Development	2,100,000,000	2,100,000,000	2,100,000,000
KeNHA Total Funds	29,852,840,816	27,898,217,687	29,819,936,239
KRB Board/CS Allocation	7,267,210,204	6,656,054,422	7,155,104,060
KWS (Roads within National Parks & Game Reserves)	726,721,020	665,605,442.2	715,510,406
KeRRA – (Road Class C)	23,255,072,653	21,299,374,149	22,896,332,992
KURA – Urban Roads (Road Classes UA, UB & UC)	10,900,815,306	9,984,081,633	10,732,656,090
Total Funds for Maintenance	72,002,660,000	65,229,333,333	71,319,539,787
Kenya Roads Board Operations	1,765,340,000	1,630,000,000	1,748,742,782
Road Annuity Fund	14,499,000,000	13,366,666,667	14,368,856,514
Total Allocations to Road Agencies	88,267,000,000	81,500,000,000	87,437,139,083
Additional amount from approved Parliament estimates		2,123,000,000	
TOTAL KRB-F	88,267,000,000	83,623,000,000	87,437,139,083

=The above estimates have been prepared based on the assumption that the recent fuel prices will not adversely affect consumption of petrol and diesel in the country and subsequently the arising collections. KRB will continually monitor the collections and if necessary, adjust the programme accordingly, in consultation with the Ministry of Roads and Transport and the National Treasury.

APRP PREPARATION GUIDELINES AND PRIORITIES

3

The APRP 2024/2025 has been prepared taking into account the KRB (General) Rules, 2022 Part II – Annual Roads Programmes, in addition to aligning to the Government agenda and Medium Term Plans.

The following are some of the key considerations in APRP preparation: -

- (i) *Road Asset Preservation* – Performance Based Contracting (PBC) maintenance, routine maintenance and periodic maintenance interventions to be applied to the roads in good and fair condition as far as possible in order to preserve the existing road assets. The actual network in good and fair condition is established from the Annual Road Inventory and Condition Survey (ARICS).
- (ii) *Road Asset Restoration* - some critical roads in poor condition included in the programme to receive full scale or partial rehabilitation, reconstruction, spot improvement to keep them in a motorable condition until major interventions are undertaken.
- (iii) *Road Improvement and Development* - to respond to traffic growth, the capacity of some roads will be improved through upgrading, widening, junction improvement and new construction. Other improvements include provision of non-motorized transport facilities such as cycle tracks, footpaths and construction of pedestrian crossings especially for urban roads. A maximum of 10% KRB-F will be applied for road improvement and development.
- (iv) *Multi-year road projects* - Ongoing multi-year projects were included in the programme and adequately resourced before introducing new ones.
- (v) Prioritizing maintenance of major transport corridors, national trunk roads, collector and access roads in the road network. These will improve connectivity and access to agriculturally rich areas, local and international markets spurring growth of manufacturing sector. Improved road network will also increase accessibility to health facilities, schools, and residential areas.
- (vi) **Support the Bottom-up Economic Transformation Agenda (BETA) for Inclusive Growth** by prioritizing maintenance of roads under your jurisdiction to provide access to the citizens from the grassroot level as well as in key county towns and headquarters. This will enhance Agriculture, Micro, Small and Medium Enterprise (MSME) economy, Affordable Housing and Healthcare. The roadwork interventions should also be climate resilient while incorporating environmental preservation measures.
- (vii) To support employment creation, the programme should include roads which will be delivered using labour intensive strategies such as Performance Based Maintenance Contracting and R2000 strategy.
- (viii) *Emergencies* - Funds have been set aside for emergencies to ensure that the network is passable throughout the year.
- (ix) Allocation of funds for road safety and environmental preservation activities in the work plans.
- (x) Allocation of funds for maintenance of bridges and structures in the work plans.
- (xi) Stakeholder views, requests and complaints to the Board have been considered in the preparation of the work plans.

The ARWPs were reviewed in consultation with the road agencies. Internally, the work plans were checked to ensure that there was no duplication of road programs within and across the road agencies and that the maintenance interventions are guided by road inventory and condition surveys undertaken by road agencies.

● APRP 2024/2025 OUTPUTS

4

Considering the above guidelines and priorities, the Road Agencies (RAs) prepared and submitted their draft ARWPs. The draft ARWPs were reviewed by the Board and the required clarifications and revisions communicated to the RAs for necessary action.

Table 2 below shows the distribution of funds between road maintenance and development activities and in offsetting operation and administrative expenses for the road agencies in the APRP FY 2024/2025.

Table 2: Distribution of Funds Between Roadworks and Administration Expenses

S/No.	Agency	Road Works (KShs.)	Admin. Exp. (KShs.)	Total (KShs.)
1	KeNHA	25,289,044,354	2,609,173,333	27,898,217,687
2	KeRRA	17,711,760,816	3,587,613,333	21,299,374,149
3	KURA	7,942,081,633	2,042,000,000	9,984,081,633
4	KWS	665,605,442	0	665,605,442
5	CS/Board Allocation	6,656,054,422	0	6,656,054,422
Total		58,264,546,667	8,238,786,666	66,503,333,333

Note 1: The administrative expenses amount is obtained by applying 4% and 5.5% of the total RMLF to KeNHA and KeRRA respectively as guided by the KRB Act exclusive of Road Annuity and KRB's operations budget which amounts to KShs. 66,503,333,333. KURA is required to receive 5.5% of RMLF budget as administrative expenses as per the KRB Act. If the same is applied, it would substantially reduce available funds for roadworks. An acceptable figure as indicated was agreed between KRB & KURA.

Note 2. KRB allows KWS to use KShs. 26,705,640 for Road Works supervision expenses.

The Board is currently undertaking RSIP III to inform the status of the network funding and priority programmes in the next 5 years.

Kenya has a total network estimated at **239,122 Km** as per the updated RICS 2023, of which **164,967 Km** is classified network. According to the RICS data of 2023, about 157,513 Km of the network is maintainable. The National Trunk Road network currently stands at **44,629 Km** and the rest are County roads.

Table 3 below shows a comparison of the total planned length of the National Trunk Roads for FY 2024/25 and the last two years. In FY 2024/25 the planned network by KeRRA is 9,194 Kms (40%) of class 'C' National Trunk roads and 14,159 Kms (60%) of county roads.

Table 3: Comparison of APRP Planned Km and Roadworks Amounts

Financial Years	RAs APRP Planned Km and Roadworks Budgets							
	KeNHA		KeRRA		KURA		KWS	
	Km	Amount (KShs)	Km	Amount (KShs)	Km	Amount (KShs)	Km	Amount (KShs)
FY 2024/25	17,910	16,770,726,107	22,684	18,107,708,565	2,922.7	6,607,073,431	1133.8	639,005,441
FY 2023/24	17,920	20,592,736,666	25,444	19,126,486,353	2,821	8,957,855,306	2,614	699,831,020
FY 2022/23	17,474	22,251,171,902	23,186	17,980,946,136	2,375	8,249,455,902	2,569	638,302,898

In FY 2024/25, the road agencies have planned to maintain a total of **47,649 Kms** of road network through various intervention measures. As observed from Table 3 above, the reduction in the length of Kms to be maintained is attributed to rise in cost of construction inputs (materials, labour, fuel etc).

KURA network, due to the desired levels of road safety there is a budgetary allocation of Ksh. 5.03 million to install and standardize bumps in each of the ten (10) regions and additional road marking budget of Ksh. 30.4 million in Nairobi region.

Additionally, in the recent reclassification KURA acquired more earth and gravel roads to its existing network. The sustainability of earth roads is a challenge as compared to paved roads. KURA has a policy of stage construction on all earth and gravel roads within its network, aimed to gradually upgrading the gravel and earth roads to bitumen standard which are more sustainable.

To achieve their desired levels of service, urban roads constitute additional facilities, such as lined covered drains, walkways & road furniture amongst others. In the current workplan, KURA intends to construct 2.9 km of pedestrian walkway at a cost of KShs. 35.2 million.

In FY 2024/25, the road agencies have planned to maintain a total of **47,649 Km** of road network through various intervention measures as follows:

Routine Maintenance - This is a regular planned maintenance of roads that involves cleaning of drainage systems, light grading of gravel and earth roads, filling of potholes, patching and repair of edges of a pavement for paved roads, repair of shoulders and side slopes, and vegetation control on the road reserves.

Periodic Maintenance - This is maintenance carried out in periodic intervals of years to preserve the pavement structure of a road. It involves activities aimed at strengthening the road surface covering long stretches. The activities range from re-gravelling a gravel road to overlay of tarmac (AC) or surface dressing of a paved road.

Spot improvement- Spot improvement is a measure undertaken to restore a failed section of a road. This approach tries to keep roads in poor condition motorable by improving soft spots on gravel or earth roads and reconstructing failed sections of paved roads as they await periodic maintenance or rehabilitation. Spot improvement may also be carried out on specific failed sections of roads in good and fair condition or re-construction of collapsed culverts and short bridges.

PBC - Performance Based Contracting (PBC) is an approach in road maintenance where most of the risks in road maintenance contracts are transferred to the contractor. In this approach the Road Agency sets out service levels (standards) of a road required to be achieved by the contractor and makes fixed monthly or quarterly payments to the contractor for achieving the set service levels. The contract period varies from country to country but in Kenya a period of 1 and 3 years is currently being used by KURA and KeNHA respectively.

Upgrading- This involves changing or improving the carriageway of a road from one surface type to a higher standard surface type. For instance, a road may be upgraded from earth to gravel standard or from gravel to bitumen standard (tarmac).

Table 4 below is a summary of the planned interventions in FY 2024/2025.

Table 4: Consolidated APRP FY 2024/2025 Outputs

Road Agency	Road Network	Routine Mtce.	Periodic Mtce.	Spot Improv.	PBC Mtce.	Up Grading	Total Length Planned (Km)	Roadworks Budget (KSh.s)
KENHA	22,320	8,204.0	562.5	-	9,143.0	-	17,910.0	16,770,726,107
KeNHA Development support								2,100,000,000
KeRRA	18,378	18,181.0	580.0	3,895.0	-	29.0	22,684.0	18,107,708,565
KURA	3,826	906.3	524.2	-	1,405.7	84.8	2,921.0	6,607,073,432
KWS	N/A3	1,036.0	-	-	97.8	-	1,133.8	639,005,441
Board/CS Allocation							3,000.0	6,656,054,422
TOTAL	44,634	28,327.3	1,666.7	3,895.0	10,646.5	113.8	47,648.8	50,880,567,967
Current FY 2023/2024	44,022	25,870.80	602	11,553	10,708	64	53,798	58,664,952,678

Notes:

- i. Kilometers planned under KeNHA includes 312 Kms funded from the conditional grant of Kshs 1,980,715,722 that shall be carried forward from FY 2023/24.
- ii. KeNHA has also planned to maintain 162 Kms of Street lighting maintenance in the work plan at a cost of KShs. 439 million.
- iii. KeNHA has planned to construct and maintain over 30No. of structures (Tunnel, Bridges, Box culverts, Drifts, foot bridges) at a cost of KShs. 2.1 billion.
- iv. KWS maintains roads in National Parks and Game Reserves on behalf of the Road Authorities and County Governments
- v. KURA has planned to construct 2.9 km of pedestrian walkway at a cost of KShs. 35.2 million.
 - vi. KURA has planned to maintain 4No. of structures (Box culverts, Bridges, Drifts) totaling 1.25 km including their approaches at a total cost of KShs. 72.8 million.
- vii. To enhance road safety, KURA plans to perform road marking on an extra 37.4 km of roadworks in Nairobi Region at a cost of KShs. 30.4 million and install / standardize bumps in all regions at a cost of KShs. 50.4 million.

The total road network of **47,649 Km** to be covered in FY2024/2025 APRP includes **33,686 Kms** of national trunk roads and **12,270 Kms** of county roads. This represents 29.3% of the entire classified road network of 164,967 Km as per the updated RICS data 2023.

A network of approximately 3,000 km (based on previous financial year outputs) is planned during the financial year under the 10% CS allocation budget as shown in Table 4 above. Communication to the Road Agencies on the roads to be prioritized under this allocation will be done as per the Cabinet Secretary's approval in consultation with the Board.

KeRRA has also included in the planned network a total of **12,270 Kms** of county roads in their FY 2024/25 ARPWs representing 12% of the total County classified road network.

The total planned network in FY 2024/25 has decreased by 10.4% compared to the previous Financial Year. The cost per Km for the various type of roadworks interventions has been analyzed per Road Agency. The summary of cost is given in **Table 5** below:

Table 5: Summary of Cost Per Km per RA Per Intervention Type

S/No.	Works Category / Intervention Type	Cost Per Km			
		KeNHA	KURA	KeRRA	KWS
	PBC Maintenance	42,275	50,000 -90,000	-	49,600
	Routine Maintenance	437,567	1,357,814	422,264	224,987
	Spot Improvement	-	-	1,899,197	
	Periodic Maintenance	5,047,517	7,401,373	3,759,353	-
	Upgrading/Reconstruction	-	26,299,843	29,251,750	-
	Upgrading (Paving Blocks)	-	8,402,438	29,659,301	-

Note 1: For PBC maintenance works the cost is per Km per month and the rate varies within regions.

Note 2: Periodic maintenance intervention by KeRRA is gravelling / re-gravelling works.

Note 3: The works planned by KeRRA in Nairobi and Mombasa are mostly upgrading roads to bituminous standards and paving blocks.

Note 4: Upgrading to paving blocks interventions have been planned by KeRRA in Nairobi and Mombasa.

ROAD AGENCIES
WORK PLANS

5

5.1 KENYA NATIONAL HIGHWAYS AUTHORITY

5.1.1 KeNHA Budget Summary and Expected Outputs

The funds available to KeNHA amounts to KShs. 29,998,217,687.07 inclusive of KShs. 25,289,044,354 for road maintenance works, KShs. 2,100,000,000 for development support and KShs. 2,609,173,333 for operations costs.

Table 6 below shows detailed breakdown.

Table 6: ARWP FY 2024/2025 Grand Summary for KeNHA

KENYA NATIONAL HIGHWAYS AUTHORITY			
REVISED ANNUAL ROADS WORKS PROGRAMME (ARWP) OVERALL SUMMARY FOR FINANCIAL YEAR 2024-2025			
S/No.	DESCRIPTION	PLANNED KM	REVISED CEILINGS - FY 2024/2025

5.1.1.1 KeNHA Head Quarters Activities

As may be seen from **Table 6, above**, part of the RMLF amounting to **KShs. 7,518,318,247** shall cover various activities to be managed from KeNHA Head Quarters (H/Q). The planned H/Q activities in FY 2024/2025 include the following among others: -

- Axle Load Activities:** Currently, KeNHA is managing and operating a total of 23No virtual weighbridges alongside 13No static weighbridge stations. Ongoing or new Axle Load Control Management Contracts and Axle Load Monitoring shall take 37% which is the largest fraction of H/Q budgeted activities to protect the roads from premature failure resulting from overloading.
- The conditional grant roadworks which has been termed as Bottom Up Economic Transformation Agenda (BETA) programmes by KeNHA covers 312Km and three (3) footbridges will take about 30% of the H/Q budget.
- Major structures mainly bridges and tunnel construction and maintenance under H/Q activities shall cover the proposed new Tana River Bridge along A3 highway at Garissa, Lesongoy Bridge along Namanga - Amboseli B54 Road, construction of new footbridges and maintenance of existing bridges all taking 12.8% while the Green Park underpass (tunnel) shall take 6% of the H/Q activities budget respectively.
- A provisional budget for road safety has been provided as seed money. However, the individual road maintenance projects shall capture the actual road safety activities in the Bills of Quantities (BoQ) to be prepared during tender documentation. The activities will range from installation of traffic signs, guardrails, road marking to street lighting within urban areas and road safety audits on the Agency's network.
- A provision for emergency works has been made to meet unexpected eventualities that may occur on the highways (cut-oof, washouts etc).
- Road condition survey activities, mainly ARICS in the various Regions and Corridors has been provided and the H/Q shall disburse these funds to the units for implementation of this key activity.

- g) Budget to cater for development of a 50-year road masterplan involving traffic data collection has been made and the consultancy for this activity is underway.
- h) Training or capacity building of the Agency's officers involved in maintenance.
- i) Road reserve titles survey for acquisition of all the road reserve titles for custody and records has been provided and is an ongoing activity.
- j) Other provisions also include Roadside development control which entails public sensitization and stakeholder meetings on road asset protection, audit, and documentation of existing billboards and signboards on the road reserve and periodic surveillance of the road reserve; a provision to cushion the Agency against arbitration and court matters and lastly a provision to support the ongoing Bridge Management System (BMS) being developed by the Agency as well as research and innovation activities.

KeNHA is also expected to undertake Development Works on a portion of its network. A budget of **KShs. 2.1 billion** is normally set aside for Development Support every Financial Year. The specific road projects, lengths and budgets to be expended shall be communicated from the Ministry of Roads and Transport (MoRT) on or before the year of implementation.

5.1.1.2 Corridors and Regions Maintenance Activities

The Corridors and Regions are expected to have some broad outputs as itemized in terms of works category or intervention as shown in **Table 7** below:

Table 7: Summary of Proposed Interventions for KeNHA ARWP FY 2024/2025

S/No.	Works category / Intervention	Paved Surface (Km)	Combined (Paved/unpaved) Surface (Km)	Unpaved Surface (Gravel) (Km)	Surface type not indicated (Km)	Total Planned Length (Km)	Budget Amount (KSh)	% of Planned Km	% of Planned Amount
Roadworks									
1	PBC Maintenance	8,509.14	42.71	29.71		8,581.56	12,867,337,714	50.6%	51.0%
2	Routine Maintenance & Spot Improvement	873.00	-	6,827.90	-	7,700.90	3,369,663,853	45.4%	13.4%
3	Periodic Maintenance	215.02	-	0.60	-	215.63	1,082,496,385	1.3%	4.3%
4	Strengthening maintenance (through PBC)	156.90	-	-	4.64	161.55	438,915,891	1.0%	1.7%
	Roadworks total	9,754.07	42.71	6,858.21	4.64	16,660	17,758,413,844	98.2%	70.4%
Others									
5	Structures			11 No.			283,544,544	N/A	1.1%
6	ARICS						14,481,671	N/A	0.1%
8	Road Reserve Protection						81,393,586	N/A	0.3%
9	Road asset protection						18,568,626	N/A	0.1%
10	Framework Contracts						306,382,325	N/A	1.2%
11	Box culverts						116,053,911	N/A	0.5%
12	Drifts						37,137,252	N/A	0.1%
	Others Totals						857,561,914	N/A	3.40%
	Total for Regions/Corridors						18,615,975,759	98.2%	73.8%
13	Management Contracts & Axle Load monitoring						2,450,000,000	N/A	9.7%
14	HQ activities (several)						2,188,735,430	N/A	8.7%
15	Structures under BETA						400,000,000	N/A	1.6%
16	Periodic Maintenance under BETA Programmes	66.00	-	246.00	-	312.00	1,580,715,722	1.8%	6.3%
	Total for HQ						6,619,451,152	1.8%	26.2%
	Total Planned	9,820.07	42.71	7,104.21	4.64	16,972	25,235,426,910	100.0%	100.0%
	Total Network					22,320			
	Percentage Coverage					76.0%			

As may be deduced from **Table 7** above, approximately half (50.6%) of the planned network will be put under PBC maintenance while 45.4% of the planned network will require combined routine maintenance and spot improvement measures which go hand in hand especially for long stretches of roads. Periodic maintenance mainly on some paved roads shall involve rehabilitation, reconstruction or resealing to improve drainage of surface water and skid resistance of the highways. This is minimal at 1.3% of the planned network. The BETA programmes at H/Q are also classified as Periodic Maintenance interventions and constitute 1.8% of the total planned network.

A comparison of the average unit cost for each of the intervention measures in previous ARWP for FY 2023/2024 and the current ARWP for FY 2024/2025 are given in **Table 8** below.

Table 8: Cost of Maintenance Intervention Type Per Km

S/No.	Works category / Intervention	Previous ARWP 2023/24 Cost Per Km	Current ARWP 2024/25 Cost Per Km	% Change in Cost
1	PBC Maintenance	1,472,736	1,521,914	3.23%
2	Routine Maintenance & Spot Improvement	393,438	437,165	10.0%
3	Periodic Maintenance (includes BETA Programmes)	3,769,890	5,047,517	25.3%
	Overall	1,055,023	1,139,497	7.4%

As may be observed from Table 8 above, there has been an increase in the overall cost per Km of the maintenance programme by 7.4% attributable to increased price of construction materials mainly due to rise in fuel prices.

In addition to the network of 17,910 Km planned for maintenance in FY 2024/2025, some of the other KeNHA's network not included is as given in Table 9 below:

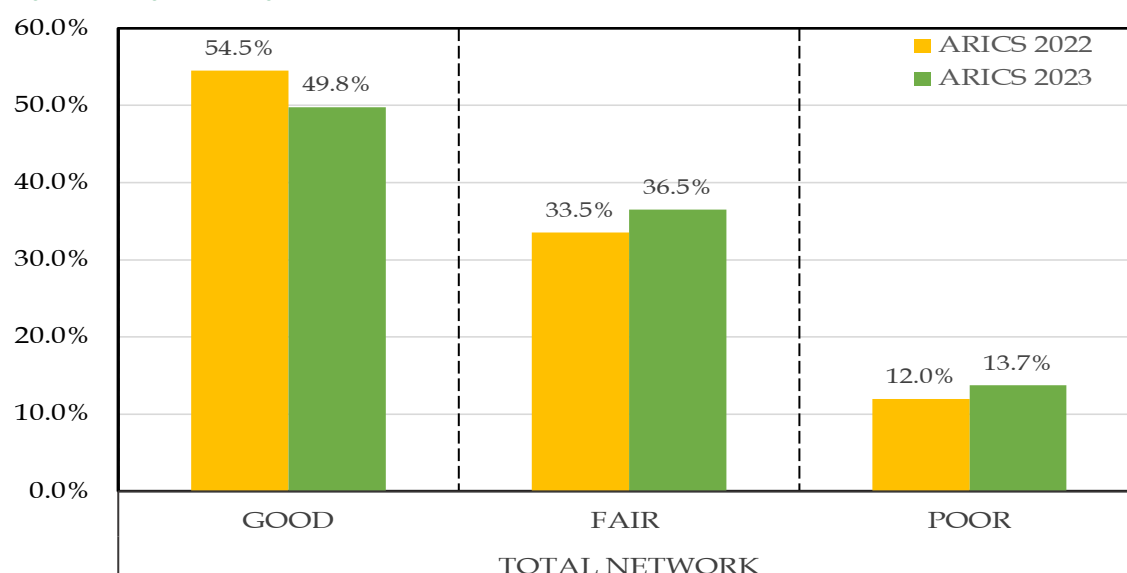

Table 9: KeNHA Balance of Road Network not in ARWP FY 2024/2025

Description	Length (Km)
Under KeRRA (Low Volume Seal Roads in Transition)	1,618.46
Under Development (Upgrade, Reconstruction or Expansion)	856.98
Inaccessible / Unopened alignments	315
Under LAPSSSET Projects (North Eastern & Coast Regions)	811
Additional network due to upgrade of other road classes to Class B (road re-classification)	1,746.56
Total	5,348

5.1.1.3 KeNHA Road Network Condition

ARICS is undertaken by the Road Agencies a year in advance before preparation of the work plans. KeNHA submitted 2023 ARICS data which was analyzed and compared with 2022 ARIC data to give the condition status summary as shown in the figure below.

Figure 2: Changes in the Highways Road Condition Status for the last One (1) Year

From Figure 2 above, it is observed that there was a slight decrease of 1.7% of the network in both good and fair condition combined, while that in poor state increased by the same margin. This was attributed to uptake of deteriorated Class C roads upgraded to Class B and decreasing the proportion of the network in good and fair state combined, while simultaneously increasing the proportion of the network in poor state.

However, KeNHA needs to progressively upgrade the unpaved road network to bitumen standards for sustainability in future since gravel roads require constant re-gravelling and grading. Due to budget constraints, **holding maintenance** is planned to be undertaken on some of the roads in poor condition, just to improve their motorability. It should nonetheless be noted that this sort of intervention cannot improve the poor condition status of such roads and that intensive and costly interventions like reconstruction or rehabilitation are still necessary in the near future.

The detailed ARWP for FY 2024/2025 is attached in **Annex I** for reference.

5.2 KENYA RURAL ROADS AUTHORITY

5.2.1 KeRRA Budget

The funds available to KeRRA amount to **KSh. 21,299,374,149** and will be applied as shown in Table 10 below:

Table 10: Breakdown of KeRRA Ceiling as Issued

KeRRA ARWP FY 2024/2025 Grand Summary					
No	Income/Ceilings	Total Budget	Admin. Exp	Road Works	Allocation per Constituency
		KShs	KShs	KShs	KShs
1	22% RMLF	14,643,319,727	2,466,484,166	12,176,835,56	41,989,088
2	10% RMLF	6,656,054,421	1,121,129,166	5,534,925,255	19,085,949
3	Sub-total	21,299,374,149	3,587,613,333	17,711,760,816	61,075,037
	Previous FY 2023-24	22,838,666,667	3,846,887,917	18,780,218,750	64,759,375

During FY 2024/25, KeRRA will allocate **Kshs 61,075,037** per Constituency which comprises of **Kshs 41,989,088** under 22% RMLF Allocation and **Kshs 19,085,949** under 10% RMLF Allocation. The total allocation per constituency in FY 2023/24 of KSh. 64,759,375 is a notable decrease from the allocation per constituency in FY 2024/25 of **KSh. 61,075,037** KeRRA submitted workplans for both the 22% RMLF and the 10% RMLF allocations in accordance with the ceilings issued given in **Table 10** above.

5.2.2 KeRRA APRP Outputs

The Work Plan will be implemented through routine maintenance, spot improvement and Periodic maintenance (gravelling/re-gravelling) interventions as shown in Table 11 below:

Table 11: Summary of Outputs for KeRRA ARWP FY 2024/2025

No.	Proposed Intervention Measures	Planned FY 2023/24		Planned FY 2024/25		
		Planned Km	Work Plan Cost (KShs.)	Planned Km	Work Plan Cost (KShs.)	Cost / Km (KShs.)
1	Routine Maintenance	13,890	3,468,990,342	18,181	7,677,181,784	422,264.00
2	Spot Improvement	11,553	15,311,228,408	3,895	7,397,372,315	1,899,197.00
3	Periodic Maintenance (Gravelling / Re-gravelling)	-	-	580	2,180,424,740	3,759,353.00
4	Upgrading (Bituminous)	-	-	29	852,729,726	29,251,750.00
5	Upgrading (Paving Blocks)	-	-			29,659,301
	TOTAL	25,444	18,780,218,750	22,684	18,107,708,565	

The FY2024/25 Work Plan is estimated to cover **22,684 kms** compared to **25,444 kms** in previous FY representing a decrease of **2,760 Kms** (10.8%). KeRRA has planned a total of 9,211 Km of class "C" roads representing 50% of its classified rural road network of 18,378km. However, it should be noted that out of the planned **22,684 km**, County roads account for 60% of all the planned works.

KeRRA's FY 2024/25 Work Plan is targeted towards spot improvement and re-gravelling to improve accessibility of rural roads and routine maintenance for asset preservation. It is observed from **Table 11** above that KeRRA increased the network under routine maintenance from 13,890 Kms in FY 2023/24 to 18,181 Kms in FY 2024/25 an increase of 30.9%. Even though the planned Kms under spot improvement reduced substantially due to increased construction costs, the Authority planned for some 580 Kms of periodic maintenance (gravelling / re-gravelling) works, 29 kms upgrading to bitumen standard

From **Table 12** below it is indicated that the decreased funds in FY 2024/25 decreased the length of 600mm diameter culvert installation by 6.5% compared to APRP FY 2023/24. However, KeRRA planned for substantial scope of works for gravelling / re-gravelling and 900mm diameter culvert installation by 53% and 22% respectively in FY 2024/25 compared with FY 2023/24. The two activities are the major scope of works for spot improvement intervention on the planned roads.

Table 12: Summary of Major Activities Planned in KeRRA ARWP FY 2024/2025 & FY 2023/2024

Description	Units	Planned length FY 2024/2025	Planned length FY 2023/2024	% increase/decrease in Length
Culvert installation 600mm dia.	m	71,374	76,061	(6.5%)
Culvert installation 900mm dia.	m	14,504	11,887	22%
Gravel Wearing Course	km	5,622	3,682	53%

These interventions are expected to keep the 22,684 Kms of road network in at least 'fair' condition. Due to budget constraints, these interventions will not address the full maintenance needs of the rural roads in 'fair and poor' conditions of about 70% based on the results from RICS, 2023.

The KeRRA Detailed Work Plans for 22% and 10% RMLF funded works are attached in Annex II and III respectively.

5.3 KENYA URBAN ROADS AUTHORITY

5.3.1 KURA Budget

The funds available to KURA amount to **KShs. 9,984,081,633** and will be applied as shown in Table 13 below.

Table 13: Breakdown of KURA Ceiling as Issued

KENYA URBAN ROADS AUTHORITY ANNUAL ROADS WORKS PROGRAMME(ARWP) FOR FINANCIAL YEAR 2024/2025			
No.	INCOME/CEILINGS	2023/2024 BUDGET	2024/2025 BUDGET
1	15% RMLF	10,900,815,306	9,984,081,633
2	TOTAL INCOME	10,900,815,306	9,984,081,633
3	LESS ADMIN & OPERATIONS	1,892,000,000	2,042,000,000
4	BALANCE ROAD WORKS	9,008,815,306	7,942,081,633

5.3.2 KURA ARWP FY 2024/25 Expected Outputs

KURA prepared and submitted their Annual Road Work Programme (ARWP) which covers **2,922.7 Km** as compared to the previous year's **2,821 Km**. The planned network represents 76.4% of KURA's Classified Road network of 3,826 Km.

Additionally, the Output includes 2.9 km of pedestrian walkway and 4 No. structures. From analysis there is a decrease of 9.2% in planned road network compared to FY 2023/24. However, KURA plans to install and standardize bumps in each of the ten (10) regions and additional road marking in Nairobi region to enhance road safety.

Table 14: Summary of Expected Outputs for KURA FY 2024/2025

No.	Region	2023/2024		2024/2025	
		Planned Km FY	BUDGET FY	Planned Km FY	BUDGET FY
	HEAD QUARTERS (Works Support)	-	200,960,000	-	250,000,000
	HEAD QUARTERS -maintenance of bridges	-	50,000,000	-	133,186,572
	Axle Load and Corridor Management				254,440,680
	Admin Expenses				2,042,000,000
	CENTRAL	228.4	766,320,714.06	187.6	597,086,056
	COAST	431.9	1,221,054,880.	437	948,877,124.9
	LOWER EASTERN	298.0	774,694,874	308.7	600,895,335.2
	NAIROBI	674.6	1,934,106,651	825	1,270,936,716.0
	NORTH EASTERN	25.8	367,055,954	45	288,221,471.0
	NORTH RIFT	366.7		318.6	598,394,653.0
	NYANZA	351.4		326.6	801,389,687.2
	SOUTH RIFT	189.4		255.5	621,459,704.0
	UPPER EASTERN	122.8		112.5	429,232,240.0
	WESTERN REGION	131.6		135.9	450,580,444.1
	TOTAL	2,821		2,922.7	9,984,081,633

From the roadworks budget, KURA determines and allocates an amount for work support activities, managed from the Head Quarters. The work support activities entail Axle load monitoring & control, encroachment, relocation of utilities, inhouse design activities amongst others.

Planned works are implemented through various intervention measures as categorized in the table below.

Table 15: KURA Road Maintenance Intervention Measures for FY 2024/2025

No.	Works Category/ Intervention Measures	Planned Km	% of Planned Km	Budget (KSh.)	% of Road Works Budget
1	PBC Maintenance	1,405.70	48%	2,587,398,593	39%
2	Periodic Maintenance	524	18%	2,191,762,758	33%
3	Routine Maintenance	906	31%	1,034,246,336	16%
4	Upgrading	85	3%	996,546,255	15%
	TOTAL	2,921.03	100%	6,607,073,432	100%

From the table above, it is observed that KURA has almost half of its planned network (48%) under PBC maintenance. Additionally, a significant portion of its planned network is under at Routine maintenance 31%. The PBC maintenance programmes are preferred due to the lengthy time periods between successive maintenance contracts, hence the need to ensure protective works are being carried out at any time on the roads, with an aim to preserve the roads in good and fair condition.

In addition, KURA has planned to construct 2.9 km of NMT Facilities at a budget of KShs. **35,269,536**, 4 number structures at a budget of KShs. **80,161,964** and road safety initiatives amounting to KShs. **110,161,964**.

Further, an analysis of the average unit cost/Km for each of the intervention measures was carried out. It was realized that the cost/Km for PBC is double that for routine maintenance due to inclusion of road reinstatement of failed sections of the carriageway prior to onset of regular maintenance. The findings are as presented in the comparison table below.

Table 16: Cost of Maintenance Intervention Measure Per Km for KURA

No.	Works Category	FY 2023/24		FY 2024/25	
		Planned km	Cost / km	Planned km	Cost / km
1	PBC Maintenance	1,072.1	50,000-78,000	1,405.70	50,000 -90,000
2	Periodic Maintenance	393.5	5,372,935.	524	7,401,373
3	Routine Maintenance	1,291	1,750,304.	906	1,357,814
4	Upgrading	64	19,830,971	85	26,299,843
	TOTAL	2,821		2,922.7	
5	NMT (Pedestrian walkway)	1	8,402,438	2.9	12,161,909

The KURA Detailed Work Plan is attached in **Annex IV**.

5.4 KENYA WILDLIFE SERVICES

5.4.1 KWS Budget

The funds available to KWS amount to **KSh. 665,605,442** and will be applied as shown in table below:

Table 17: Breakdown of KWS Ceilings as Issued.

KWS ANNUAL ROADS WORKS PROGRAMME (ARWP) FOR FY 2023/2024			
No.	INCOME/CEILINGS	BUDGET FY 2023/2024	BUDGET FY 2024/2025
1	1% RMLF	699,831,020	665,605,442
Allocated as follows			
2	ROAD WORKS	699,831,020	665,605,442
3	TOTAL KWS	699,831,020	665,605,442

5.4.2 KWS ARWP 2024/25 Expected Output

KWS prepared and submitted their Annual Road Works Programme which covers **1133.8** Km as compared to previous year's 2,613.7 Km (Table 17 below). The indication is that there is a 56% decrease in planned road network from previous FY to Current FY.

Table 18: Summary of Outputs for KWS FY 2024/2025

No.	Region	FY 2023/24		FY 2024/25	
		Planned Km	Budget (KSh.)	Planned Km	Budget (KSh.)
1.	Central	795.5	310,914,919	548.5	375,958,416.00
2.	Eastern	1,589.5	247,849,583	495	140,047,026.00
3.	Western	228.67	112,266,516	90.4	123,000,000.00
4.	NAIROBI (Supervision expenses)	-	28,800,000		26,705,640
	Total	2613.7	699,831,020	1133.9	665,605,442

The KWS proposed intervention measures will include PBC and Routine maintenance on 1,133.8 km to preserve the roads in good and fair condition. The details of the interventions are given in the table below.

Table 19: KWS Proposed Road maintenance Intervention Measures for FY 2024/2025

No.	Proposed Intervention Measures	Planned Km	Planned Amount (KSh.)	Cost/km
1	Performance Based Contracting	98	85,532,460	50,000
2	Routine Maintenance	1,036	639,005,441	224,987
3	Upgrading (ETB)	-	-	-
	Total	1,133.8	629,363,163.2	

The KWS Detailed Work Plan is attached in **Annex V**.

REVISED ROAD ASSET & CORRIDOR MANAGEMENT BUDGET 2020/2021 & PROPOSED MTEF BUDGET 2021/22, 2022/23, 2023/24
